Prabhjot Singh Riar

Toronto, ON | 647-303-0687 | pjsriar@gmail.com| LinkedIn Profile| My Website

Professional Summary

Detail-oriented and security-focused IT professional with hands-on experience in technical support, network troubleshooting, and incident coordination. Adept at identifying system vulnerabilities, managing access controls, and supporting enterprise tools across multi-tiered infrastructure. Proven ability to operate under pressure in high-volume environments with a growing focus on threat detection, SIEM, and cybersecurity frameworks. Currently transitioning into a full-time cybersecurity operations role, backed by certifications and practical exposure in SOC-aligned functions.

Key Skills

Cybersecurity & SOC Operations:
• SIEM (Splunk, FortiSIEM, QRadar)
• Incident Response (IR) & Triage
• Threat Detection & Malware Analysis
• DLP, IAM, Vulnerability Assessment
• NIST, MITRE ATT&CK, OWASP Top 10

Network & System Security:
• CCNA Certified | TCP/IP, DNS, VPNs, VLANs
• Firewalls, ACLs, NAT, DHCP, Endpoint Security
• Packet Analysis (Wireshark), Log Analysis
• Secure Device Configuration & Network Hardening

Technical & Tools:
• Python, Bash, SQL, Docker, Git, REST APIs
• AWS, Azure, Microsoft SQL Server
• Jira, Confluence, VMware, Power BI
• Linux Administration, AD, Visual Studio

Soft Skills:
• Analytical Thinking | Problem Solving
• Time Management | Cross-Team Collaboration
• Communication | Risk Management

Certifications

• CompTIA Security+
• Certified in Cybersecurity (ISC2) CISSP- In progress.
• ISO 27001 Certified Lead Auditor
• CCNA – Networking

Professional Experience

Technical Support Consultant

Rogers Communications, Toronto, ON | Nov 2022 – Present

• Investigated and resolved 150+ support cases weekly, including network, device, and connectivity issues—using secure practices aligned with cybersecurity protocols.
• Conducted first-level security incident triage, escalating threats and anomalies to senior analysts in accordance with NIST-based response playbooks.
• Supported internal tools (Maestro, ICM, X-Ray, SGI), identifying performance bottlenecks and access control issues—improving internal escalation outcomes by 30%.
• Documented user activities, access logs, and system events for audit readiness and forensics.
• Participated in root-cause analysis and vendor coordination to address recurring incidents and maintain SLA compliance.
• Maintained 95% first-call resolution rate and monitored user behavior for unusual access patterns or policy deviations.
• Worked with authentication tools and system permissions, ensuring least-privilege access.

Networking Technician

Bell Technical Solutions, Toronto, ON | Jan 2022 – Oct 2022

• Installed and maintained fiber and copper infrastructure for 100+ client sites/month.
• Diagnosed and remediated communication system issues, improving uptime by 20%.
• Onboarded hardware securely and ensured compliance with configuration standards.
• Promoted secure digital services and educated customers on safe practices.

Business Analyst

Techlive Solutions | Jan 2018 – Jun 2019

• Led process improvement initiatives involving data flow mapping and user access streamlining.
• Developed workflow automation to reduce errors and data exposure.
• Improved system efficiencies and reduced redundancies by 30%.

Education

Post-Graduate Certificate – Business Management
Lambton College, Toronto, ON | 2021 – 2023

Bachelor of Law
KCL Institute of Law | 2018 – 2021

Bachelor of Technology – Computer Science Engineering
Chandigarh Group of Colleges | 2014 – 2018

Projects & Labs

SOC Investigation Lab – Splunk & QRadar: Analyzed malicious login behavior, DNS tunneling, and endpoint compromise patterns.
AWS Security Lab: Configured IAM roles, S3 bucket policies, and CloudTrail for incident response tracking.
